Oath/Declaration

A new Declaration/Power of Attorney is provided herewith.

35 USC § 103 Rejections

The Examiner has rejected claims 1-4, 8, 9, and 13-15 under 35 USC § 103 as being obvious in view of Yang et al., Mack et al., Kass-Eisler et al., and Graham et al. (WO 98/13510).

By the amendment of specification above, Applicant claims priority to the Graham et al. application serial number 08/719,217, from which Graham et al. publication, WO 98/13510, arose. This removes Graham et al. (WO 98/13510) as a reference, and accordingly obviates the above-noted 35 USC § 103 rejection of claims 1-4, 8, 9, and 13-15.

A declaration will be provided, upon request by the Examiner, to overcome any possible difficulty with regard to differing entities in the present application and application serial number 08/719,217. It is noted that there are two common inventors, and one inventor of application serial number 08/719,217 is not an inventor in the present application.

Docket No: AdVec 9
Serial No: 09/286,874

All grounds for rejection having been addressed and overcome herein, it is respectfully urged that this application is in condition for allowance. Should the Examiner be of the opinion that there remain valid grounds on which any of the pending claims, it is respectfully requested that the undersigned be accorded the courtesy of a telephonic or in-person interview to address and overcome any such remaining grounds for rejection.

Respectfully submitted,

Joseph Fischer, Patent Attorney
